Strengthening position in industrial dispensing applications

Sulzer Acquires PC Cox—Leading Manufacturer of Industrial Dispensers

Sulzer acquired PC Cox Group Ltd. headquartered in Newbury, UK, on April 4, 2016. The enterprise value is about GBP 16 million (23 CHF million). PC Cox is a leading manufacturer of dispensers as well as handheld sealant and adhesive applicators for industrial applications.

PC Cox sells quality manual, pneumatic, and cordless one- and two-component dispensers for industrial and construction applications under the brand name Cox. The group achieved revenues of GBP 15 million (CHF 21 million) in 2015 and has approximately 170 employees.

Through the complementary acquisition, Sulzer Mixpac—a business unit of the Chemtech division—becomes a leading manufacturer of dispensers for disposable mixers in industrial applications. PC Cox's range of products further strengthens Sulzer's position as a technology leader and enables it to compete globally as a leading solution provider in the area of mixing, dosing, and application systems.

The transaction has already closed, and full integration will begin immediately. All employees of PC Cox will be taken over, assuring ongoing customer dedication and quality commitment.

Additional information about products and services can be found at www.sulzer.com or www.pccox.co.uk.
